Camtasia Studio Hotkeys & Other Shortcuts

This guide gives some overview information on hotkeys and keyboard shortcuts and lists all the hotkeys available throughout the Camtasia Studio suite of products.

What is a Hotkey?

A hotkey, also called a keyboard shortcut, shortcut key, or keystroke combination, is a key or set of keys that perform a defined function in a software application or computer operating system.

Reducing application tasks and processes to a hotkey often saves the user time and makes software usage easier for those with disabilities.

Windows Sticky Keys

When a keyboard shortcut includes the <Shift>, <Ctrl>, <Alt> keys, or the Windows key, the Windows Sticky Keys feature lets you press that key and it remains active until another key is pressed.

This is especially useful for those who might have a difficult time holding down two or more keys at one time.

For example, the keyboard shortcut for Copy is to press and hold the <Ctrl> key and then press the <C> key. When Sticky Keys is turned on, press the < Ctrl > key, and then press the <C> key.

- ▶ **To Turn On Sticky Keys**
 1. Press the keyboard's < Shift > key five times. You will hear a beep.
 2. A dialog box appears with instructions on how to set up the Sticky Keys feature.

- ▶ **To Turn Off Sticky Keys:**

Press both of the keyboard's < Shift > keys simultaneously.

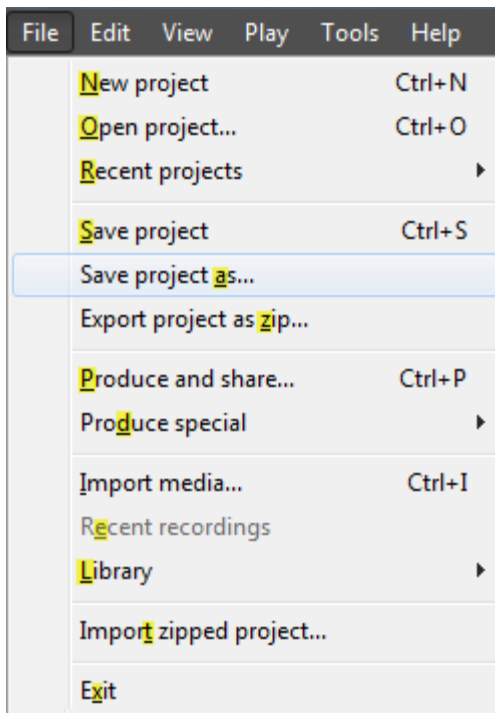

Continue with **Application Mnemonics**.

Application Mnemonics

A mnemonic is an underlined character found in an application's title bar, menu item, text of a button, and more.

To activate the mnemonic commands in Camtasia Studio:

1. Press <Alt> and the first letter of the menu command. For example, press <Alt + F> to open the File menu. The mnemonic letters appear.

2. While still holding the <Alt> key, press the underlined letter on the keyboard.

Recorder Hotkeys

Default Hotkeys

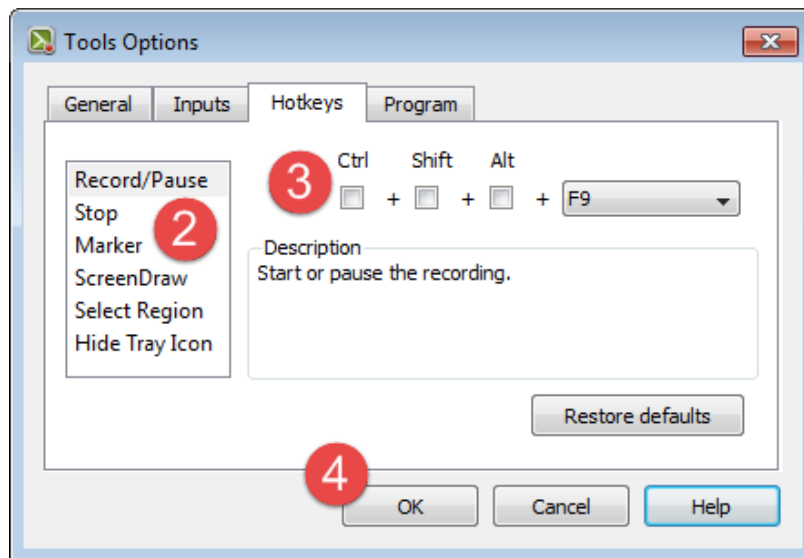

Option	Default Hotkey
Record	F9
Pause	F9
Stop	F10
Marker	Ctrl + M
ScreenDraw	Ctrl + Shift + D
Select Region	None (You can choose your own)
Hide Tray Icon	None (You can choose your own)
Mute	None (You can choose your own)

To Change the Default Settings

 Camtasia Recorder > Tools > Options > Hotkeys tab.

To assign record keyboard hotkeys:

1. Select a recording function.
2. Choose the keystrokes.
3. Click **OK**.

Editor Effects and Elements Hotkeys

Default Hotkeys

Option	Hotkey	Configurable?
Add Callout	C	Yes Tools > Options
Add Caption	A	Yes Tools > Options
Add Quiz	Q	Yes Tools > Options
Add Transition	T	Yes Tools > Options
Add Visual Animation	Z	Yes Tools > Options
Add Marker	M	Yes Tools > Options
Extend frame	E	Yes Tools > Options
Split	S	Yes Tools > Options

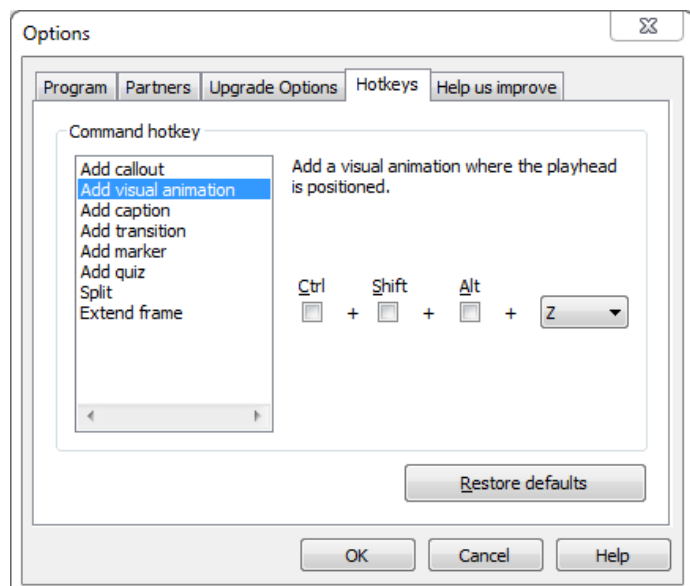

To Change the Default Settings

 Camtasia Studio > Tools > Options > Hotkeys tab

The options in the Hotkeys tab allow you to change the default hotkeys for adding elements or effects (callouts, zoom keyframes, etc.) to the timeline.

To assign hotkeys:

1. Select a command from the scrolling list.
2. Create the desired hotkey combination.
3. Click **OK**.

Generic Windows Hotkeys

These hotkeys work in most Windows applications.

Option	Hotkey
Ctrl + C	Copy
Ctrl + X	Cut
Ctrl + V	Paste
Ctrl + N	New
Ctrl + S	Save
Ctrl + O	Open
Ctrl + P	Print
Ctrl + Z	Undo
Ctrl + A	Select all
F1	Open help
Alt + First letter of menu item	Activate menu bar
Alt + Space	Display system menu
Escape	Remove focus from current control/menu, or close dialog box
Ctrl + F4	Close tab or child window

Recorder ScreenDraw Hotkeys

 When using ScreenDraw, all drawing is permanently burned into the recording and cannot be changed or removed. Adding arrows or callouts in Camtasia Studio Editor after recording creates a similar effect. However, arrows and callouts in Camtasia Studio can be edited.

Add drawing effects like arrows and circles over the screen as your record with ScreenDraw.

ScreenDraw Hotkeys

 These hotkeys are not customizable.

When recording the full screen, use the ScreenDraw hotkeys to enable ScreenDraw and to change the tools. You can change the tool, color, or width of the drawing tools.

Option	Hotkey
Program Options	
Enable ScreenDraw	Ctrl + SHIFT + D
Tool Width	1 through 8
Undo	Ctrl + Z
Redo	Ctrl + Y
Exit ScreenDraw	ESC
Shape	
Frame	F
Highlight	H
Ellipse	E
Pen	P
Line	L
Arrow	A
Color	
Black	K
Blue	B
Cyan	C
Green	G
Yellow	Y
White	W
Magenta	M
Red	R
