The absence of a name/mark or logo in this notice does not constitute a waiver of any intellectual property rights that TechSmith Corporation has established in any of its product, feature or service names/marks or logos. All other marks are the property of their respective owners.

Camtasia Installation Guide

This guide is designed for system administrators who want to customize and deploy Camtasia installations across a network. We recommend you use the TechSmith Deployment Tool. The Deployment Tool can be downloaded [here](#).

To deploy without using the TechSmith Deployment tool, the table below lists you the Properties and their associated values. You can deploy Camtasia by passing the Properties on the command line to the EXE or the MSI, or by manually editing the MSI file to create a transform file with the customized settings

Camtasia 9 Deployment Options*		Property Name	Default	Enable	Disable
1.	Start Camtasia after installation (Bootstrapper EXE only)	TSC_START_NOW	1	1	0
